THE OFFICE OF APPRENTICESHIP TRAINING

Registered Apprentices (RA) earn while they learn: they master a trade through a combination of on-the-job training and classroom instruction. Thousands of companies across Connecticut have benefited from a customized Registered Apprenticeship Program (RAP). These programs increase workforce recruitment and proficiency, help employers transfer occupational skills to a new generation of workers, and ensure succession planning.

Registered Apprenticeship Programs provide a portable credential that is industry-recognized and certifies the completion of the program. It distinguishes the Registered Apprentice as a master of their craft and makes them eligible to take occupational licensing exams.

Visit the [Registered Apprenticeship webpage](#) for information.

The Benefits

- On-the-job training and classroom instruction ensures a well-qualified, job-ready employee.
- A Registered Apprenticeship Program helps employers develop a world-class workforce, enhance productivity, and profitability.
- Pre-apprenticeships help individuals and employers cultivate talent and accelerate entry requirements for Registered Apprenticeship Programs and ensure pre-apprentices are prepared to be successful in their RAP.

TRADE ADJUSTMENT ASSISTANCE ON-THE-JOB TRAINING

Trade Adjustment Assistance (TAA) provides training benefits to workers who have lost their jobs due to foreign trade. On-the-job training (OJT) is a method of training new employees at the work site using other skilled employees as instructors. TAA on-the-job training brings together employers and workers by providing funding to employers to offset a portion of the cost of training workers in skilled occupations.

Visit the [Trade Adjustment Assistance webpage](#) for more information.

The Benefits

- Provides up to 50% of the starting wage rate for a new employee.
- TAA funds can pay for the necessary schooling not provided in the OJT.
- Reimbursement between two and nine months (104 weeks maximum), depending on complexity and skill level of the job.
- CTDOL staff will help design a customized OJT plan to meet the employer's needs.
- Funding can also be used to support a Registered Apprenticeship program.
